

# The certifications

## The advantages of our certified products

The European "Ecolabel" is an ecologic label that aims to promote products that respect the environment and health by limiting its impact from the extraction of raw materials to their end of life.  
The consumer sees the logo on the product and knows he can buy it with confidence.

With the award of the international label "Air Intérieur Contrôlé" and the A+ rating, the best rating for our 4 references, we can guarantee the end consumer formulas that respect his health. The risk of toxicity of emanations in indoor air is very low.  
The consumer looks at the logo printed on the product on the shelf, which guides his buying gesture in complete transparency.

**Confidence  
Transparency**

ECODÉTERGENT

Note: certification process in progress

**ECOCERT certification provides consumers with guarantees on environmentally friendly production and processing processes, recommends components of natural or organic origin, prohibits most petrochemical ingredients and attests to responsible management of natural resources. The consumer can guide its purchase intention through this logo which appears on the product visual.**
